

## Five Nation Longhouse Confederacy

*'Ka-na-ha-na-ha - People of Hlani'*

Five days after the 2<sup>nd</sup> New Moon, February 5<sup>th</sup> 2022.

### **SOLUTION TO AVOIDING WORLDWIDE ENVIRONMENTAL CATASTROPHE RE: united nation's "resolution of the 2030 agenda for sustainable development" 25-09-2015.**

In accord with the Two Row Wampum Peace Treaty, the Kanienkehaka (Mohawk) People of the Five Nations LongHouse Confederacy, Kahnawake, Turtle Island, have observed the behaviour of the european for the last 500 hundred years. Their collective behaviour has proven, by their own science, to be so destructive, that their own united nations has put a deadline of 2030 in which to reverse their actions.

We accept their science (<https://www.youtube.com/watch?v=tAPDXHvmqo4&t=123s>) that a world-wide action must be taken to correct the destruction to the water, land and air that the european has caused. However, their political systems are so corrupt; they cannot heed their own warnings to protect themselves.

When we consider the european caused environmental degradation on all levels of the ecosystem, factored in with the u.n. deadline of 2030, we have concluded that the *Hemp-Unity agenda* is the one universal Earth Healing Medicine that can address all of these issues, on every level, in the short time remaining.

The european action of 1492 and the pollution of a river today are both part of a cognitive colonial agenda of planetary destruction, embarked upon hundreds of years ago. Consequently, when the white european kidnapped, raped, terrorized and murdered our native children in the british/nazi residential school concentration camps, with the express intent of "*killing the Native in the child*", it was their design to stop our children from becoming our ancestral identity of stewards of the land.

britain, and the church, designed the atrocity of kidnapping children from our families and culture, to stop an entire generation of our people, from "being" our People and our "continuous fire" - this is genocide!

So-called canada's official policy of reconciliation, places direct responsibility for the destruction of the environment and the people upon the shoulders of the british/european. It is they who must take corrective action for all the children they killed, by protecting the very land that those murdered children would have grown into adulthood to protect, if not for the european killing them.

As the european kidnapped, tortured and murdered native children in every colonizing country, to remove them from being the proper stewards of the land, we identify that, to have proper reconciliation, the british/european must take immediate corrective actions from their course of planetary destruction, by endorsing and facilitating the agenda of "*Hemp-Unity*", to facilitate every person in every country on Earth, to plant *Hemp* for its medicinal healing properties; plant *Hemp* to reverse the destruction to the land; plant *Hemp* to clean the water; plant *Hemp* to clean the air; plant *Hemp* to save our Mother Earth.

The non native society must endorse this agenda worldwide, as it will compel each one to become closer to the land they have destroyed and bring them closer to understanding why countless Native children would rather have died in the freezing cold, than be subjected to the horrors of the white european.

On behalf of all the native children the canadian/american/european kidnapped, raped, terrorized and murdered around the world.

Skennen kowa,  
Great peace,

---
